

“All the features of a single tilt in space recliner built into a porter chair, for ease of movement”

Dr Hilary Jones
Our In-house Health Advisor

COMFORT WITHOUT COMPROMISE

**Considered users,
those who require:**

- Postural support
- Pressure care management
- Portering
- High leg elevation

Suitable for:

Home

Healthcare

Nursing and
Residential Homes

The Brooklyn comes with all the features of our successful healthcare chairs but, with the added advantage of an electric, single tilt in space recline which can be controlled from a handset or with an option of a button on the chair wing.

The advanced design of the Brooklyn solves the challenge of continual changing care demands, allowing carers to:

- Adapt the Brooklyn for different posture needs with six different interchangeable waterfall or lateral back styles.
- Support different posture requirements and positions with alternative headrests and pillows.
- Manage specific comfort and pressure management needs with interchangeable seat cushions constructed from a range of specialist pressure care materials.
- Control infections by choosing from our range of healthcare grade fabrics.
- Maintain the highest hygiene standards with quick change covers and replacement cushions.
- Purchase replacement or new support cushions as needed to extend the use of the Brooklyn.

Brooklyn

COMFORT WITHOUT COMPROMISE

Key features

- ① The Push Handle comes with rubber grips and a hook for the handset controller.
- ② The single Tilt in Space electric recline can be controlled by either an easy to use handset controller or with an option to upgrade to a button controller in the wing of the chair.
- ③ Separate waterfall back cushions can be individually repositioned and adjusted for comfort and support.
- ④ Back cushions can be removed and replaced with more supportive lateral styles.
- ⑤ The seat depth can be adjusted with 1" or 2" adjuster pads that fit behind the back cushions.
- ⑥ Choose internal seat cushions from a range of pressure care management solutions.
- ⑦ The chair is upholstered in a vapour permeable multi-way stretch fabric as standard (although shown here in Panvelle, this is an optional fabric upgrade), to aid pressure care. The fabric is washable at 95°C and available in a range of colours.
- ⑧ The leg rest is upholstered in a deep memory foam cover for comfort when in a reclined position. The cover can easily be removed for cleaning.
- ⑨ A sliding footplate comes as standard to support easy portering from room to room, there is also the optional extra of a height adjustable foot rest.
- ⑩ The Brooklyn comes with four heavy duty lockable castors.

This chair can be upgraded with a rechargeable battery system providing freedom from an electricity supply when in use.

Push handle

Footplate in and out for portering

The **Brooklyn** - for **reclined comfort** and **care**

Repose Brooklyn seat options for pressure management

All cushions are covered in multi-way stretch, vapour permeable fabric which is wipeable, removable, washable at 95°C, incontinence proof and breathable.

Viscoform

- Memory foam (std)
- Reflex foam

Pressure Risk **LOW MEDIUM**

For those who have good posture and mobility but are seated for greater than one hour at a time and require pressure relief and supported comfort.

This cushion has a high density foam base which offers a supportive and firm seat base with a top layer of memory foam to allow submersion into the cushion giving stability and a large surface area to reduce pressure levels.

Liquiform

- Memory foam
- Liquid gel sac
- Reflex foam

Pressure Risk **MEDIUM HIGH**

For those who have good posture and mobility but are seated for long periods of time and require pressure relief and supported comfort. Excellent for people with little fatty tissue.

This cushion has a high density foam base which offers a supportive and firm seat base topped with a fluid liquid gel in a soft silicone cover to provide high levels of pressure relief. The liquid gel helps to dissipate heat and constantly adapts to movement.

Celliform

- Gelacell mesh gel
- Reflex foam

Pressure Risk **MEDIUM HIGH**

For those sitting for long periods of time with specific comfort issues such as a high risk of pressure sores and shear forces.

Gelacell's unique grid design eliminates pressure points by contouring in response to the transfer of weight and evenly distributing pressure. The molecular structure restricts absorbed heat and keeps the seat cooler and fresher.

Airform

- Memory foam
- 3 x manual air cushions
- Reflex foam

Pressure Risk **HIGH**

For those who have good postural position but who are unable to alter their own position easily and require high level pressure care.

This cushion gives the benefit of an air cushion without the sensation of alternating changes in air pressure.

Dynaform

- Westmeria alternating air cushion
- Reflex foam

Pressure Risk **VERY HIGH**

For those at very high risk of developing pressure sores or a history of sores where the highest priority is to prevent further pressure damage.

For users only up to 20 stones (120kg). The Dynaform cushion is a dynamic alternating air cushion which constantly changes the air levels within its many air cells to recreate the effect of pressure relieving and prevent pressure build up.

Air cell features

- 6 dynamic cells 4" (10cm) wide
- 3 cell cycle repeated every 9 minutes

Please note the Dynaform cushion does need an electric supply at all times to operate. The Dynaform cushion is not available on size 1.

Pressure mapping

All Repose seat designs undergo rigorous pressure mapping testing to ensure we achieve the highest standards possible. A mat of pressure sensors is applied to the seat. The matrix of sensors quantifies the surface pressure between a person and the support surface the chair provides. The results provide a map for analysis by clinicians who can then advise our design teams. The aim is to ensure that pressure is as evenly distributed as possible and that the maximum area of the thighs and buttocks is supported as at low an interface pressure as possible.

Poor pressure distribution

Good pressure distribution

Pressure Map for individual: Gender: Female; Age: 35 Years; Weight: 10.5 Stones.

Note: Users with pressure relief needs or concerns are advised to seek the advice of a tissue viability clinician on the most suitable level of pressure relief for their medical requirements.

COMFORT WITHOUT COMPROMISE

Chair options

Back cushion options for enhanced support

Waterfall back cushion

Individual waterfall cushions, which are fully adjustable to accommodate maximum postural support.

Comfort lateral back cushion

Soft fibre filled removable lateral cushion for lower back and side lumbar support, without feeling restricted.

Support lateral back cushion

A foam filled back providing firmer lateral support with a soft fibre filled headrest.

Large profile headrest with waterfall back

Recommended for those with limited head control and requiring a soft adjustable lumbar support.

Large profile headrest with comfort lateral back

Recommended for those with limited head control and requiring soft lateral support without feeling restricted.

Large profile headrest with support lateral back

Recommended for those with limited head control and requiring firm foam lateral lumbar and midline support.

Headrest options

Small Head Pillow

Head Roll

Small Profile Headrest

Midline Headrest

Care features

Easy replace covers. Quick to change and replace for care and cleaning.

Interchangeable seat cushions to adapt the Brooklyn for each new user's pressure care or support needs.

Flexible positioning of the three waterfall cushions to get the shape of the back right for each user, with adjustable back padding in all cushions.

Available sizes

	MEDIUM			LARGE		
	1	2	3	1	2	3
SEAT HEIGHT	18.5" (47cm)	18.5" (47cm)	18.5" (47cm)	20.5" (52cm)	20.5" (52cm)	20.5" (52cm)
SEAT WIDTH	16.5" (42cm)	18.5" (47cm)	20.5" (52cm)	16.5" (42cm)	18.5" (47cm)	20.5" (52cm)
SEAT DEPTH	20" (51cm)	20" (51cm)	20" (51cm)	20" (51cm)	20" (51cm)	20" (51cm)

Weight limit

The Brooklyn has a weight limit of 20 Stones.

Fabric options

- Waterproof
- Anti MRSA
- Anti Bacterial
- Anti Fungal
- Crib 5
- Bleach cleanable
- Vinyl

The fabric options shown in this brochure: Cadet Zest Pacific outer with Panvelle stretch Eden Duck Egg inner seat and back cushion covers. As standard the Brooklyn comes in any Cadet outer fabric with a choice of 5 colours for the vapour permeable stretch seat and back cushions.

Guarantees

The Repose Brooklyn comes with the following guarantees:

- 2 Year electrical warranty for the recliner mechanism.
- 1 Year warranty on alternating seat cushions.
- 1 Year warranty on the upholstery and frame.*
